To Whom It May Concern:

This letter recognizes NV Licensing Services as a professional company that places the client's best interest as their top priority.

Serina Choi shows great concern and patience with all clients, assisting them through the arduous process of obtaining business licenses.

In addition to having many years of business licensing knowledge, NV Licensing Services utilizes community networking, tapping into resources of established local organizations and businesses like Eagle Rock Gaming to satisfy other licensing requirements such as gaming.

It is a pleasure working with NV Licensing Services, and I can attest to the great character and loyalty of Serina which is essential in building long term relationships.

Sincerely,

EAGLE ROCK GAMING
